

Book Review Of Danny Champion Of The World

This book Danny Champion Of The World is written by Roald Dahl. Roald Dahl has taken some of his characters from his life. The book is about the childhood of a boy named Danny. He lives in a caravan in a field with his father.

My favourite character is Danny. I think it would be even better if Danny had already known (secretly) about his dad's deep, dark secret.

I enjoyed when Danny made up his own method of poaching because it seemed so real, like he had done it before.

My favourite part in the book is when his dad visits Danny's teachers house and tells the teacher off!

I did not like the fact that Danny's mum died when he was 4 months old, it made me feel very sad.

The book has made me learn that poaching is bad and even if you don't have food it is not right to take someone else's without asking, it is stealing.

I would recommend this book to my family and friends because I loved it. I think mostly boys would like this book.

It makes me want to read more Roald Dahl.
