

# Count the wildlife that's counting on you

- 1 Visit [rspb.org.uk/birdwatchhowto](http://rspb.org.uk/birdwatchhowto) to see just how easy it is to take part, and download our bird ID sheet to help you work out who's who.
- 2 Watch the birds in your garden or local park for one hour.
- 3 Count the birds that land in your garden/park, not those flying over.
- 4 The same birds may land more than once. To avoid counting them twice, please submit the highest number you see of each bird species at any one time in the hour – not the total number you count over the hour.
- 5 Use this form to tell us what you've seen, even if you saw nothing – it's still really useful information! Tell us about other wildlife too.
- 6 Please complete and return this form to the FREEPOST address shown below, or enter your results at [rspb.org.uk/birdwatch](http://rspb.org.uk/birdwatch)

## Big Garden Birdwatch

Enjoy an hour in the company of nature during **28–30 January 2017** and be part of the world's largest wildlife survey.

**Thank you for taking part** – your results will help us work out how nature is doing right across the UK.

## How often do you see other wildlife?

You may not see the creatures below in your hour (especially hedgehogs, slow worms and grass snakes, which may be hibernating), but we'd like to know if any have visited your garden or local park **in the last year** and, if so, roughly how often. Please put the appropriate letter (below) in each box. Please don't leave any boxes blank. If you don't know write "F".

A = Daily, B = Weekly, C = Monthly, D = Less than monthly, E = Never, F = Don't know

Stag beetle	<input type="text"/>	Fox	<input type="text"/>
